INTRODUCING OUR NEW STANDARD OFFICE PHONES

 **Midgard**
Making IT Work

GRP2614

Key Features

- 4.3" colour LCD screen with swappable face plates
- 2.4" additional colour display screen
- 48 virtual multipurpose keys (VPKs)

The GRP2614 Grandstream phone stands as a testament to the convergence of cutting-edge technology and unparalleled functionality. With its advanced features, including high-definition audio, seamless integration with all three systems we offer, and a user-friendly interface,

the GRP2614 delivers an exceptional communication experience. Its robust security protocols, extensive network compatibility, and effortless provisioning options make it a versatile choice for businesses seeking enhanced productivity and reliability in their telecommunications. Utilizing the GRP2614 phone, you can not only elevate your communication capabilities but also streamline operations, ultimately achieving a more efficient and responsive communication environment.
