WINDOWS / LINUX

COMPUTERS

Our advanced patch management and antivirus solutions are tailored to safeguard every aspect of your Windows-based systems, ensuring they remain resilient against cyber threats.

SERVERS

Safeguarding servers, catering to both Windows and Linux distributions. With our reliable patch and antivirus solutions, to ensure the security and reliability of your server infrastructure, regardless of the operating system in use.

FIREWALLS

Our approach to security extends beyond most IT. We implement robust firewalls and advanced security protocols to create a multi-layered defense for your systems. These measures act as an impenetrable barrier, effectively thwarting potential threats and ensuring the safety and integrity of your systems

MIDGARD CARE

A comprehensive service designed to fortify your computer systems against ever-evolving threats. With Midgard Care, every computer under your roof is safeguarded by cutting-edge patch management and state-of-the-art antivirus solutions. Our expert team tirelessly monitors and updates your systems, ensuring they stay resilient and secure in the face of cyber challenges. Trust us to be your vigilant guardian, defending your IT infrastructure so you can focus on what truly matters - the growth and success of your business. Embrace peace of mind with Midgard Care and embark on a worry-free digital journey today!

WEBSITES/ EMAILS

We're proud to offer a range of solutions that empower your digital presence. From websites to email hosting, we utilize dedicated servers to ensure peak performance and reliability. Additionally, we provide access to Office 365, enhancing your productivity. Our custom-built portal puts you in the driver's seat, granting full control over DNS and email forwardings, giving you the flexibility and control you need to tailor your online experience to your exact specifications.

SEO + MANAGEMENT

Elevate your online presence with our SEO services and comprehensive website management. Our team of experts is committed to enhancing your website's visibility and reach through strategic SEO techniques. We not only optimize existing pages but also create engaging, new content to captivate your audience. And to keep you informed, we provide a monthly report, offering valuable insights into your website's performance, SEO progress, and areas for improvement. With our SEO and website management services, you can stay ahead in the digital landscape while focusing on what you do best – growing your business.

PROTECTION

In our commitment to comprehensive cybersecurity, we offer valuable training in phishing detection. Equip your team with the knowledge and skills to recognize and thwart phishing attempts, fortifying your defense against cyber threats. Additionally, our spam service efficiently filters and blocks unwanted email clutter, ensuring a streamlined and secure communication environment for your organization.

OFFICE 365

Simplify your business operations with Office 365, a powerful suite of productivity tools. At Midgard, we go the extra mile by organizing and assigning Office 365 licenses for you. We streamline the setup process, ensuring that your team can seamlessly access and utilize the full potential of Office 365, enhancing collaboration and productivity across your organization.

VOIP SYSTEMS

3CX

SINGLE PERSON

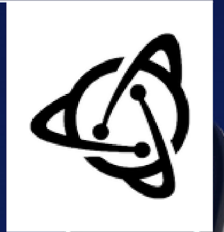

A single app on your Mobile device or office phone. But with all the flexibility of a more advanced system. Including Menus and intro messages.

FULL SYSTEMS

Our full VOIP system delivers all the features and capabilities you need at a fraction of the cost compared to traditional providers like BT. Say goodbye to expensive phone bills while enjoying crystal-clear calls, advanced features, and reliability that won't drain your budget

VOIP PHONES

Discover the future of communication with our custom-built VOIP system. Designed to match the unique needs of your business, our VOIP solutions offer unparalleled flexibility and scalability. Whether you prefer our custom system, the versatility of 3CX, or a single-person option, we have you covered. Elevate your communication game with crystal-clear calls and advanced features tailored to your specific requirements.

BUSINESS BROADBAND

Experience unmatched connectivity with our business-grade broadband solutions. Designed to meet the demanding needs of modern enterprises, our broadband services offer lightning-fast speeds, reliable connections, and low latency.

BACKUPS

OFFSITE

Reliable cloud backup secures your data offsite, ensuring data integrity, rapid recovery, and peace of mind against unforeseen disasters.

ON SITE

On-premises backup ensures data control and accessibility within your physical infrastructure, enhancing data security and high level company compliance adherence.

HYBRID

A hybrid backup system blends on-site and cloud solutions, balancing speed and security for comprehensive data protection and recovery options.

CYBER SECURITY

Protect your business from the ever-evolving landscape of cyber threats with our tailored cybersecurity packages. We understand that every organization has unique vulnerabilities and needs, which is why we offer a range of comprehensive solutions to safeguard your digital assets. From proactive threat monitoring to robust firewalls, our packages are designed to provide peace of mind. Our expert team works tirelessly to stay ahead of cybercriminals, ensuring that your business remains resilient and secure in the face of adversity. With our cybersecurity packages, you can focus on your core operations while we defend your digital frontier.
